

GROUNDWATER MANAGEMENT AREA 14
655 CONROE PARK NORTH DRIVE
CONROE, TEXAS 77303
936.494.3436

Date: June 6, 2015
To: GMA 14 District Representatives and Interlocal Agreement Participants
From: Kathy Turner Jones, General Manger, Lone Star GCD
Subject: Transmittal of GMA 14 Desired Future Conditions Resolution an related materials

Pursuant to Texas Water Code Section 36.108 (d) and (d-2), I am formally sending to you the Groundwater Management Area 14 (GMA 14) Resolution 2015 01, which was unanimously adopted as the proposed desired future conditions (DFCs) for relevant aquifers in GMA 14 on June 24, 2015. In addition, relevant supporting materials that you will need to make available to the public have now been uploaded and are available for review and downloading at <https://www.dropbox.com/sh/h5jipp0wsh4xoIU/AADoCxvuAQXk1fsiqX9oOeaNa?dl=0>.

I recommend that you place a link to this information on your District's webpage to facilitate public access to the materials considered during the ongoing joint-planning process in GMA 14. Your receipt of this resolution (attached) and supporting materials (via web link) serves as the beginning of the formal 90-day public comment period required by statute, ending on or about October 3, 2015. Please remember that each District in GMA 14 is required to hold a public hearing on the proposed DFCs. At the conclusion of the 90-day public comment period, each District is required to compile for consideration a summary of relevant comments received, any suggested revisions to the proposed DFCs, and the basis for the revisions. We currently have our next GMA 14 meeting scheduled for October 28, 2015. During this meeting, the primary focus will be to review the Summary Reports submitted by GMA 14 Districts, including any suggestions for revisions to proposed DFCs.

Please let me know if you have any questions or trouble access in the materials on the link provided.

Sincerely,

Kathy Turner Jones
Coordinator
